MIXER AMPLIFIER

Output: 25 watts RMS
Sources: Computer, laptop, microphone, aux
Outputs: 3-Speakers, line-level jacks

WARRANTY:

5 Year AVRover Console and Amplifier
3 Year Projector
1 Year Computer

The 3DAVRover contains everything you need to add a whole new dimension to learning and explaining complex subject matter.

The 3DAVRover is a complete portable, yet rugged 3D AV system with all of its components securely mounted inside. The system, the newest in the line of AVRover systems, is built in a rugged, sleek-looking, powder-coated, scratch-resistant steel console.

The 3DAVRover uses a short-throw projector and active DLP-Link glasses coupled with a unique 3D processor blows away the older 3D solutions you may have seen in theaters.

Consider the advantages of introducing 3D in a portable system:

- ✓ A portable system with quick setup will allow a larger audience to experience 3D learning with the flexibility of moving the system to where it is needed at any given time.
- ✓ All of the components are configured properly and ample content can be loaded in the system - ready to use.
- ✓ AVRover pioneered the concept of a portable, yet secure classroom AV system.
