1 Year Computer

The **3DAVRover** is the latest in our line of portable presentation systems and like all of our systems is built in a sleek-looking, powder-coated, scratch-resistant, steel console.

We have spent years researching the latest and greatest in 3D technology and have integrated only the best into our 3DAVRover making is easy to bring the immersive 3D educational experience to your classroom.

Why go portable with your 3D classroom? Consider these points...

- You can share your investment between classrooms allowing for more students to experience the benefits of learning with 3D!
- Content is pre-loaded. No need to worry about software uploads that take hours. (3D Content files are huge!) We take care of that for you!
- Easy set up. Literally just roll it in place. Turn it on and pass out the glasses.
- All components are always secure and there is built in storage for your 3D glasses. No need to worry about losing or having glasses stolen.
- Superior customer service. You can rest assured that your 3D AVRover will last you for years to come and you can call us anytime you have a question or need support.
