

## 3D Educational Content

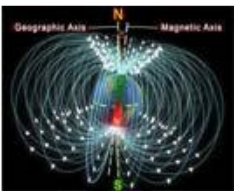

Now it's easier than ever to engage and excite your students with  
**Award Winning 3D Content!**  
Make Math & Science fun again all while dramatically increasing your  
students' retention!

We've gathered the very best 3D Content available on the market!

Get it pre-loaded and configured on your 3DAVRover for the ultimate Total 3D  
Solution or purchase separately to build your own library of 3D content!

- 250 Designmate Videos
- 75 Cyber Science Interactive Objects
- 70 Amazing Interactive Lessons

### Designmate

Designmate has been recognized by many to be the industry leader when it comes to using 3D Stereoscopic technology to create powerful educational content. Their unique blend of 3D videos, simulations, experiments, learning activities, quizzes, texts, images, weblinks & learning objects have revolutionized the way students across the world understand key concepts in Science, Biology, Physics and Chemistry.

Sample videos are available at [www.designmate.com](http://www.designmate.com)

### CyberScience

CyberScience 3D software products include incredibly detailed, interactive models spanning the subjects of Botany, Human Anatomy, Zoology, Microbiology and Chemistry to explore, dissect and manipulate. Students can follow nerve paths, examine discrete internal organs, peel back muscles, and understand the various systems of plants.

Sample videos are available at [www.cyber-anatomy.com](http://www.cyber-anatomy.com)

### Amazing Interactives

Amazing Interactives content helps students understand key concepts in Math, Chemistry and Biology. Visual concepts that can be challenging for some students, such as mirroring an image across the x or y axis are demonstrated in stunning 3D floating right before the students' eyes for a truly remarkable learning experience.

Sample videos are available at [www.amazing-int.com](http://www.amazing-int.com)
