TV Tuners
Image Touch Technology

An AVRover system is the solution that combines the reliability, security and functionality of a ceiling mounted projector installation, with the advantages of flexibility and low cost of a portable alternative. The **SVS100** is a rugged rolling console with all of its components securely mounted inside. The console, built in a sleek-looking powder-coated, scratch-resistant steel (not painted sheet metal) cabinet has excellent ventilation. Using it is as easy as rolling it into place, plugging it into an electrical outlet, and turning it on. The **SVS100** is always secure, even while in use. The projector is protected in our patented, adjustable yet secure mount.

- ✓ Projector, DVD/VCR, mixer amplifier, and 3 speakers
- ✓ Convenient laptop cables (video and audio)
- ✓ Easy-adjust image alignment sets up quickly with any screen
- ✓ One year systems parts and labor warranty-3 years on projector
- ✓ Lockable storage for laptop, remotes, media, etc.
- ✓ All controls are easily accessible, eliminating the need for remote controls
