Based on end user requirements, the AVRover pictured here may look different and contain different components

Teach where you want, the way you want.

Bring the thrill of interactive learning to any surface

We've added infrared technology to the AVRover allowing any projected image to be completely interactive. Transform a wall, whiteboard, pull-down screen, or any flat surface into an interactive whiteboard.

Everything you need for a complete solution

The Interactive AVRover comes with a projector, DVD player, sound system, laptop connections and portable interactive whiteboard.

Easy to use

No more calibrating when someone bumps into your whiteboard. With the Interactive AVRover, just move your system back into place and keep on teaching!

Key Features:

- Quick and easy 9 point calibration
- Simple to adjust active area
- Annotate over live video
- Unlimited number of whiteboard pages
- Replay presentations on any computer
- Support Windows/Linux/Mac OS X
