Teach where *you* want, the way you want.

The 2Know! Classroom Response System is a durable, cost-effective mobile technology tool designed to engage students in the learning process while providing educators with the instant feedback they need to personalize and accelerate learning.

The 2Know toolbar software allows floats over any application, making it easy to use with Powerpoint, web pages, streaming video and more. And with AccelTest Assessment Software instructors can create their own quizzes, tests and assignments for any subject and score student responses quickly.

Included with each 2Know! Classroom Response System:

> **32 Renaissance Responder Units**
> **Renaissance Receiver**
> **2Know! Toolbar**
> **AccelTest™ Assessment Software**
> **Carrying Case**
> **3 year warranty**
> **1 year technical support**
> **2 remote online trainings (RESP32)**
